

INFORMATION ON SCI/MARKET MONITORING PROJECT DATABASE

Maria Leenen, Ying Li, July 2014

OUR DATA BECOMES YOUR DATA

TODAY'S REQUIREMENTS

- You require precisely the right information on markets and projects for your company and your targets: Up-to-date and flexibly adaptable at all times
- After all, you require very specific market information for your products and for your services, and as a result you are interested in your (potential) market volume
- Professional market and competitive intelligence is indispensable in international business today and makes the subtle difference when it comes to competition

BUILDING THE BRIDGE – MARKET KNOWLEDGE

- Based on our long-year experiences of the railway sector, we have developed a market monitoring system individually tailored to your company and coordinated with you
- The market monitoring system builds the bridge between our databases and your specific requirements:
 - Comprehensive
 - Up-to-date
 - Online
 - Processable
 And almost certainly less expensive than in-house systems

THE SCI/MARKET MONITORING

You get ...

- Perspective & Transparency
- Speed & Precision
- Individuality & Flexibility
- Control & Security
- Simplicity & High performance
- Efficiency & Cost awareness

In total, you get detailed information for more than 6 000 future and contracted projects from all rolling-stock segments

ADVANTAGE FOR SUCCESSFUL DECISIONS IN COMPETITION

Perspective & Transparency

- Projects are collected, evaluated, validated and processed
- Worldwide research
- Overall, more than 4 500 future and contracted projects
- Detailed information for 1 000 future projects from all rolling stock segments
- Projects up to the year 2025 included

Speed & Precision

- Early market overview and precise project information
- Continuous update of the worldwide collected data and facts
- Constant online-availability of information on the internet

Individuality & Flexibility

- Adaption to client-specific needs, products and performances
- Evaluation of the go-opportunities (probability of the project realisation) based on valid information
- Client-specific evaluation of the get-opportunities (probability of contracting)

Overview of the advantages of the SCI/MARKET MONITORING

Control & Security

- SCI Verkehr is a recognized consultant and ensures the continuous access to information
- SCI Verkehr stands for confidentiality of company-specific information

Simplicity & High performance

- Differentiation of regional, temporal and product-specific overviews
- Simple interfaces provide fast integration in company-owned databases
- Easy handling

Efficiency & Cost awareness

- Systematic assistance of your marketing- and sales staff members
- Increasing efficiency of market analyses as well as distribution activities

Control & Security
Fast communication, confidentiality and high security standards

Individuality and Flexibility
Data is adapted and itemized to your specific needs

Speed & Precision
Online-access and continuous updates

Efficiency and cost awareness
Customized chart analyses and data downloads are available

Simplicity & High performance
Simple interfaces and easy handling

EXAMPLE OF THE SCI/MARKET MONITORING: POSSIBILITY TO DOWNLOAD ALL DATA IN EXCEL AND CHART ANALYSIS

Project Filter:	
Product Segment	all EMU DMU
Region	all Africa/Middle East Asia
Country	all Algeria Angola Argentina
Main Supplier	all Bombardier Transportation Electro-Motive Diesel, Inc.
Realisation From	all
Realisation To	all
Go-Opportunity	all 100% 90% ≤ Go-Opportunity < 100%
Get-Opportunity	all 100% 90% ≤ Get-Opportunity < 100%
Sort by:	

Download all data as xls file

The scrollable datatable can handle only a limited amount of datasets.

The result of your filter contains **7228** datasets.

To display the scrollable version of the datatable please refine your filter.

Alternatively you can:

- download the resultset as xls-file:
- download the resultset as csv-file:
- display a simple html-version:

Project Filter:	
Product Segment	all EMU DMU
Region	all Africa/Middle East

ACCESS TO FURTHER INFORMATION

A demo-version of the project database is available for you on the internet. Please use therefore the following link:
